

## Access Control Operations

1. The access control operation is responsible for the continuous security and access control onto Fort Bragg. The Garrison Commander is the Executive agent for this mission, and develops plans and polices for the installation's security. The Provost Marshal Office is entrusted to supervise and execute the mission by utilizing contract guards. At the discretion of the command, soldiers may be required to augment the current contract guard force.

2. Under current TFPCON, these gates are manned as follows:
