

Vehicle Registration

1. **Mandatory Registration.** All active duty military personnel (including allied officers) and their family members assigned to Fort Bragg, Department of the Army (DA)/Department of Defense (DoD) civilians employed by Fort Bragg, local Reserve and National Guard members, and contractors working on Fort Bragg must register their privately owned vehicles (POVs) driven on Fort Bragg.

2. **Optional Registration.** Retired military personnel and their family members, and surviving spouses and children of deceased military members who possess valid military identification (ID) cards may also register their vehicles. Civilians issued a DA Form 1602 may also receive decals.

3. **Special Registration.** Registration is also available in some cases for special categories of personnel, such as Red Cross volunteers, allied students attending a military school on post, local businessmen, etc. This requires that a business center director/brigade commander/tenant activity commander (usually a COL or equivalent) permanently assigned to Fort Bragg sign a memorandum requesting a temporary pass for such persons under his/her supervision. See FB Reg 190-5 for details.

4. Vehicle Registration is accomplished by visiting a Vehicle Registration Center, completing required paperwork (including FB Form 2229-E, Vehicle Registration Worksheet), presenting required documentation, and receiving/updating a decal set or temporary pass. The individual applying for the decal/pass must personally visit a Vehicle Registration Center. Registration must be completed not more than five working days after in-processing the installation, or acquisition of a new vehicle. This includes vehicles already having a valid DoD decal from another installation. To register a vehicle, you must present:

- A valid state driver's license (not under suspension or revocation).
- Proof of ownership (or rental or lease agreement).
- Proof of insurance.
- Proof of Social Security number (such as military ID card).
- See FB Reg 190-5 for additional requirements applicable in various cases.

5. Decals and Temporary Passes.

a. Decals, when issued, will be permanently affixed to the outside of the windshield at either the top center or the lower left (driver's) side near the inspection sticker area. They will be placed outside the path of the windshield wipers, and so that they do not interfere with a state inspection or emissions sticker. On motorcycles,

the decals will be affixed to the windshield as above (if so equipped), or to the front left fork lengthwise, or to a state-approved inspection plate on the operator's left side, so they can be read from the operator's left side.

b. A temporary pass, when issued, may be folded in half but will not be laminated or permanently affixed to the vehicle. Each temporary pass is specific to the vehicle for which it is issued, and the registrant (or spouse) must be in the vehicle (as driver or passenger) for it to be accepted.

c. Fort Bragg does not issue either "visitor" or "day" passes. Also, decals/passes are not issued to unaffiliated personnel who use sports or entertainment facilities, hunt, fish, or visit family or friends (such as in family housing or in the barracks) on the installation.

d. Decals must be **turned in** when eligibility ends (such as ETS, termination of employment, etc.), when the vehicle is disposed of (even if being sold to another individual eligible to register), when they become unserviceable (such as faded due to sun/rain), or when otherwise no longer appropriate for use (such as windshield being replaced). Write the DoD decal number on FB Form 2230-E, Vehicle Clearing/Turn-In Record and Receipt, if available. Otherwise, write it on a plain sheet of paper. Then remove the decals, affix the residue to the form/paper, and bring the residue to any Vehicle Registration Center to clear the vehicle.

e. Report lost or stolen decals to the Military Police.

6. All vehicles are subject to search, regardless of whether they have a decal, have a temporary pass, or have neither.

7. Trucks larger than pickup truck size or passenger van size, and vehicles towing other vehicles/trailers/devices that cannot be readily visually inspected, are limited to using the Knox Street and Longstreet ACPs.
