

ATTENTION HUNTERS

The moratorium on the taking of coyotes on Fort Bragg has been lifted. Hunters may kill coyotes while hunting. There are still some radio tagged coyotes on Fort Bragg, and we request that hunters kill any radio tagged coyote they encounter, and return the radio collar to the Hunting and Fishing Center, or any Wildlife Branch staff member.

Thank you for your cooperation during our research projects, and for your assistance in recovering radio collars.

Please return radio collars to The HFC or a Wildlife Branch staff member. If you need assistance call the HFC at 396-7506.

Radio Collar
