

Think **FIRST** !

Then move out smartly...

As an ID/IQ contract, lead times are reduced and task orders can be shaped to your unique requirement; buy only what you need, when and where you need it.

Flexibility

Depending upon the nature of your needs here or abroad, you may choose between Cost reimbursement, Time & Materials, Labor Hour and of course, Firm Fixed Price Task Orders.

All Army Contracting Agency offices are authorized to issue and manage task orders. Other DoD offices may be authorized upon request.

Plus, there's free technical support and assistance available anytime.
